

BRAND

20 years of IVD experience; intellectual property rights

Technology and Innovation

- Reagent R&D Center in US;
- Instrument technology from Freiburg Germany;
- 82 international patents and 12 invention patents.

Production capacity

- 150000 Tests/day;
- Certified by TUV Rheinland with ISO 13485 and CE marks.

Facility

- World-class high capacity manufacturing facility (10000 sq.m.) with 1500 sq.m. current GMP plants and strict quality control system.
- A new industrial base was established in China Medical City, Jiangsu (35,000 sq.m.)

GLOBAL SERVICE NETWORK

Hipro has subsidiaries in the United States and Germany and has established a complete sales and after-sales system. With its unique advantages, it is exported to more than 60 countries in Europe, the Middle East, Southeast Asia, South America, etc.

Hipro®

POCT Immunoassay System Hurricane HP083/4-II

- 4 individual test channels
- Rapid whole blood test
- Simple, fast and accurate
- Portable, near to patient

Hipro Biotechnology Co.,Ltd

From Silicon Valley, USA

SIMPLE OPERATION

Automatic sampling, pre-sealed reagent, accurate quantification

1. Collect sample

Dip in 1-2 mm and fill with sample.

2. Mix the sample

Insert sampler into cuvette and shake to mix.

3. Reagent Injection

Press the piston and mix quickly.

4. Test

Insert the cuvette into test channel and print the result automatically.

SIMPLE, FAST AND ACCURATE

3-level Calibration, accurate results.

Easy to operate.

4 independent channels.

90s-5min rapid test.

Open data transmission, which can connect LIS/HIS system.

Can be connected to the code scanning equipment, easy entry of test information.

Compact and convenient, suitable for multiple scenes.

TEST MENU

Highly extensible parameters

Infection	FER	CEA
PCT	★ VB12	★ PSA
Hs-CRP	Liver Function	★ Fpsa
SAA	TRF	Rheumatism
SARS-CoV-2 Antibody	PA	ASO
SARS-CoV-2 Antigen	Cardiovascular disease	CRP
Renal-Function	Myo	Anti-CCP
HbA1C	cTnl	RF
Cys-C	Lp(a)	Autoimmunity
mAlb	Lp-PLA2	IgA
NGAL	D-Dimer	IgG
RBP	Gastric function	IgM
α1-MG	PGI	IgE
β2-MG	PGII	★ Under Developing
Microelement	Tumor Marker	
25-OH-VD	AFP
